Class of 2017 Microeconometrics Conference

Duke University, Department of Economics

September 8, 2017

8:30   Transportation from 21C Museum Hotel to Duke University (SS 113)

8:40–9:10   Breakfast

9:10–9:15   Opening remarks

9:15–10:45   Session 1

Roy Allen "Identification of average demand models"

Eric Auerbach "Identification and estimation of social interactions models using network data"

10:45–11:15   Break

11:15–12:00   Session 2

Luke Taylor "Judging juries—An econometric approach"

12:00–1:30   Lunch

1:30–3:00   Session 3

Jessie Li "Constrained and penalized estimation using MCMC"

Bulat Gafarov "Inference on scalar parameters in set-identified affine models"

3:00–3:30   Break

3:30–5:00   Session 4

Laura Liu "Density forecasts in panel data models: A semiparametric Bayesian perspective"

Gregory Cox "Weak identification in a class of generically identified models with an application to factor models"

5:10   Transportation from Duke University (SS 113) to 21C Museum Hotel

6:15   Dinner (Invitation only), at Rue Cler: 401 E Chapel Hill Street, Durham
