

# Class of 2018 Microeconometrics Conference

Duke University, Department of Economics

March 29, 2019

8:20 Transportation from 21C Museum Hotel to Duke (SS 136)

8:30–9:00 Breakfast

9:00 Opening remarks

9:00–10:20 Session 1

**Karun Adusumilli** (Penn) “Bootstrap inference for propensity score matching”

**Dmitry Arkhangelsky** (CEMFI) “The role of the propensity score in fixed effect models” (with Guido Imbens)

10:20–10:50 Break

10:50–12:10 Session 2

**Vishal Kamat** (TSE) “Identification with latent choice sets: The case of the Head Start Impact Study”

**Gonzalo Vazquez-Bare** (UCSB) “Identification and estimation of spillover effects in randomized experiments”

12:10–1:40 Lunch

1:40–3:00 Session 3

**Désiré Kédagni** (Iowa State) “Identifying treatment effects in the presence of confounded types”

**Tetsuya Kaji** (Chicago Booth) “Assessing outcome-dependent heterogeneity in treatment effects” (with Elena Manresa)

3:00–3:30 Break

3:30–4:50 Session 4

**Giovanni Compiani** (Berkeley Haas) “Market counterfactuals and the specification of multi-product demand: A nonparametric approach”

**Lidia Kosenkova** (UVA) “Nonparametric inference in asymmetric first-price auctions with k-rationalizable beliefs”

4:50–5:05 Break

5:05–5:45 Session 5

**Jesper Riis-Vestergaard Sørensen** (U Copenhagen) “High-dimensional M-estimation” (with Denis Chetverikov and Zhipeng Liao)

5:55 Transportation from Duke (SS 136) to 21C Museum Hotel

6:30 Dinner (Invitation only), at Rue Cler: 401 E Chapel Hill Street, Durham
